To Whom It May Concern,

Date: 7/15/2025

My name is Ali, and I currently serve as the President of the PTA at Madison's Trust Elementary School. Over the past two years, I've chaired our After School Enrichment Program (ASEP), revitalizing it after the challenges of COVID-19.

Since 2021, I have had the pleasure of working closely with The Players Sports Academy (PSA). I first got to know their team when my sons began playing soccer with them, and shortly thereafter, I invited them to be part of our ASEP offerings. Since then, PSA has consistently delivered high-quality programming in a variety of sports including Soccer, Basketball, Pickleball, Tennis, Volleyball, and Flag Football. They have become one of our most popular and reliable vendors.

One of the standout qualities of PSA is their deep connection to our community. As a local organization, they genuinely care about the students and schools they serve. They consistently go above and beyond—whether that means providing scholarships to students experiencing hardship or stepping in to cover another vendor's class to ensure children don't miss out on enrichment opportunities.

Christopher and the PSA management team are highly responsive and professional. Christopher is always just a phone call away in case of emergencies or concerns, and his dedication to making every session a success is clear in everything he does.

I wholeheartedly recommend PSA for any school or program seeking engaging, dependable, and community-minded enrichment partners. Please feel free to reach out to me directly if you have any questions or would like to speak further about our experience.

Sincerely,

Ali Etebari, PhD
PTA President
